

DC Veterans Capital Bikeshare

NOTICE:

As of January 15th, 2020: MOVA's Capital BikeShare Program has been sunset and changed to the CaBi program. See details below.

Capital Bikeshare Community Partners Program and re-launching a new equity program, CaBi for All. This new program allows new and existing members who qualify to appreciate the full benefits of membership, including self-service registration, direct access to customer support, the ability to use the Capital Bikeshare app, and the ability to rent ebikes in the future. This program will still be available for a low annual payment and no overage fees.

This change affects how potential members qualify for discounted membership. Rather than access discounted memberships directly through Community Partners, qualified individuals will provide proof of eligibility for a wide-range of assistance programs like SNAP and discounted utilities through self-service registration on the Capital Bikeshare website.

All current MOVA members will be grandfathered into this new program, and they will be given a free year extension on their membership. They will receive email communication explaining these changes and the new benefits of CaBi for All. AS of Jan 15, 2020, 410 DC veterans have enrolled in this successful program.

Contact Phone 202-724-5454 for more information.
