EXECUTIVE SUMMARY

The District of Columbia (District) Department of Human Services (DHS) Family Services Administration (FSA), hereinafter referred to as the “DHS/FSA” or “Grantor,” is soliciting proposals (also referred to as “applications”) from applicants (or “prospective Grantees”) for Fiscal Year (FY) 2022 for the provision of Housing-Focused Case Management and other health and supportive services at the new 801 East Men’s Shelter, located on St. Elizabeth’s Campus.

Through this RFA, DHS seeks to establish a robust suite of services at the new 801 East Men’s Shelter, all geared towards engagement, consumer well-being, and ultimately connections to permanent housing. Programming in the facility will be divided into three distinct components: Day Center Programming, Health Clinic and Medical Respite Program Management, and Housing-Focused Case Management Services. A separate set of functions, collectively referred to as Shelter Operations, will be procured and delivered separately from this grant solicitation. These functions include general building management, building security, janitorial services, facility maintenance, landscaping, and food preparation/handling. Entities bidding on the work outlined in this grant solicitation will be expected to coordinate closely with Shelter Operations staff. This project will serve as an opportunity to test a new approach to providing tailored services to unaccompanied individuals with a goal of making the experience of homelessness as brief as possible.

SECTION 1. GENERAL INFORMATION

1.1 Introduction

The District of Columbia (District) Department of Human Services (DHS) Family Services Administration (FSA), hereinafter referred to as the “DHS/FSA” or “Grantor” is soliciting detailed proposals (also referred to as “applications”) from applicants (or “prospective Grantees”) for Fiscal Year (FY) 2022 to operate 801 East Men’s Shelter Service Delivery program.

Homeward DC, the District’s five year strategic plan to guide homeless service systems transformation efforts, was released in 2015. The plan establishes a vision for transformation of the District’s homeless services system into an efficient crisis response system focused on a) preventing homelessness whenever possible, b) ensuring immediate access to safe, dignified, service enriched emergency accommodations when housing loss cannot be prevented, and c) providing rapid connection to permanent housing using a variety of tools and strategies to meet each individuals unique needs and circumstances – in other words, ensuring homelessness is rare, brief, and nonrecurring.

While housing is the solution to homelessness, emergency shelter will always be an important part of the response. When a housing emergency occurs, people need an immediate place to go while they work to get back on their feet. A well-functioning system is one that can provide emergency shelter in real time to anyone that needs it.

Homeward DC acknowledged that the majority of the District’s shelter facilities were too large, in poor condition, and were not designed for their current use – and therefore presented a variety of challenges in providing individuals and families in crisis the safe, welcoming, and supportive environment needed to regain stability. Accordingly, Homeward DC called for redevelopment of many of the District’s shelter facilities while the District simultaneously worked on scaling housing programs and improving system efficiency and service quality.

Over the last five years, the District began its shelter replacement work in the family system by replacing DC General with small, service-enriched, Short-Term Family Housing (STFH) programs throughout the community. As these new facilities opened, the District has seen first-hand the importance building design can have on the ability to provide services that help households exit homelessness quickly and secure housing of their own.

With the STFH project now complete, 801 East Men’s Shelter is the District’s first major shelter redevelopment project for individuals under the Homeward DC plan. The project will serve as an opportunity to test a new approach to providing tailored services to unaccompanied individuals with a goal of making the experience of homelessness as brief as possible.

DHS and the Interagency Council on Homelessness (ICH) led a robust community engagement process to gain feedback from consumers, providers, and other partners on the building design in 2019. Work on the new facility began in 2020, with substantial completion anticipated by November 2021. Transition out of the old 801 East Men’s Shelter into this new facility and program launch of the services outlined in this solicitation are anticipated in January 2022.

The shelter will include different programming in different parts of the building. The building includes three separate shelter wings designed to meet the needs of different subpopulations: 1) 192 beds of low-barrier shelter, 2) 96 beds of shelter for individuals that are employed or otherwise on an employment track; and 3) 44 beds of shelter for seniors or other medically frail individuals. The facility also includes a Day Center and a Health Clinic and associated Medical Respite Program. The dorms will have separate,

controlled entrances, though common areas – the Day Center, Health Clinic, Dining Hall, and Outdoor Terrace – will be accessible to everyone staying in the shelter as well as individuals in the community seeking housing stability assistance.

Programming in the facility will be divided into three distinct components, as described in Section 2.3 below, though DHS will only be making one award. Applicants will likely need to form a team to ensure they have the right set of skills and experience needed to meet the requirements of this solicitation. In any teaming arrangement, one entity must be identified as the Prime, and that entity will be responsible for managing subgrantees to achieve the performance objectives outlined in this solicitation.

A separate set of functions, collectively referred to as Shelter Operations, will be procured and delivered separately from this grant solicitation. These functions include general building management (e.g., opening/closing the Day Center, monitoring laundry and shower facilities, distributing/collecting linens, monitoring dorm floors in the evening), food preparation/handling, janitorial services, pest control, building security, facility maintenance, and landscaping. Applicants bidding on this grant solicitation will be expected to coordinate closely with Shelter Operations staff.

1.2 Eligible Organizations/Entities

Non-profit community organizations, including those with IRS 501(c)(3) or 501(c)(4) determinations, faith-based organizations, such as churches, synagogues, mosques, or religiously based social service affiliates of such organizations, and private enterprises located in the District that have demonstrated experience working with individuals experiencing homelessness are encouraged to apply. Applications are also encouraged from collaborating community-based and faith-based organizations.

On the same basis as any other applicants, religious organizations are eligible to participate as long as the services funded by the 801 East Men's Shelter Services grant are provided consistent with the Establishment Clause and the Free Exercise Clause or the First Amendment to the United States Constitution, in accordance with United States Executive Order 13279 of December 12, 2002.

Eligible organizations may sub-grant the funding it receives under this grant to sub-grantees (Grantees), as approved by DHS to meet the requirements in this RFA. Applicants must include details on how it will manage services, financial, and legal responsibilities between itself as the Grantee and its sub-grantees. The application must clearly describe the roles and responsibilities for each party in the proposal.

Eligible Grantee(s) are expected to demonstrate their experience working with homeless individuals to facilitate connections first and foremost to permanent housing, in addition to employment, public benefits, healthcare, and other mainstream resources. In addition to having the appropriate staff qualifications and experience performing services similar in size and scope to the requirements of this grant, eligible Grantee(s) shall elaborate on their intent and ability to:

- Establish effective and efficient communication channels with other Grantees, shelters, day service programs, homeless service providers within the Continuum of Care, and the network's central coordinating entity;
- Provide the required services and deliverables while delivering high-value trauma informed care and services to consumers;
- Leverage non-governmental assets and coordinate with other organizations in the homeless services Continuum of Care; and
- Offer services at scale while maintaining client confidentiality.

Continuing conditions of eligibility are that the information in the application is complete and truthful and that the Applicant at all times is able to meet any material conditions stated in its application. For instance, if an Applicant's ability to fulfill the terms of the grant is based on the availability of skilled

staff and those staff should leave after the application's submittal or the grant award to the Applicant, the Applicant has the responsibility to advise DHS/FSA in writing of this change in material conditions. Another example of change in material conditions that could result in the loss of eligibility would be the loss of Applicant's tax-exempt status.

1.3 Source of Funds

The source of funds for the grant is the General Fund of the District of Columbia. Funding for grant awards is contingent upon availability of funds. Grant funds shall only be used to support activities specifically outlined in the scope of this RFA and included in the Applicant's submission. DHS also reserves the right to, without prior notice, reduce or cancel one or more programs listed in this RFA, reject all applications, adjust total funds available, or cancel the RFA in part or whole.

1.4 Award Period

The grant is being offered from November 1, 2021 through October 31, 2022 with up to 4 option years, for a total of 5 years subject to funding availability.

1.5 Projects and Funds Available

DHS is looking to award a single Grant under this RFA to provide services associated with all three programming components outlined in Section 2.3. Because of the range of services required under the RFA, it is anticipated that organizations will have to form a teaming arrangement to fulfill the requirements of this solicitation. One service provider must be identified as the Prime, and that entity will be responsible for management of and coordination among subgrantees to achieve the performance objectives outlined in this solicitation.

1.6 Purpose of the Grant

Through this RFA, DHS seeks to establish a robust suite of services at the new 801 East Men's Shelter, all geared towards engagement, consumer well-being, and ultimately connections to permanent housing. Programming in the facility will be divided into three distinct components, as described in Section 2.3 below. This project will serve as an opportunity to test a new approach to providing tailored services to unaccompanied individuals with a goal of making the experience of homelessness as brief as possible.

1.7 Anti-Deficiency Considerations

The commitment to fulfill financial obligations of any kind pursuant to any and all provisions of a grant award, or any subsequent award shall remain subject to the provisions of (i) the federal Anti-Deficiency Act, 31 D.S.C. §§1341, 1342, 1349, 1351, (ii) the District of Columbia Anti-Deficiency Act, D.C. Official Code §§ 47-355.01-355.08 (2001), (iii) D.C. Official Code § 47-105 (2001), and (iv) D.C. Official Code § 1-204.46 (2006 Supp.), as the foregoing statutes may be amended from time to time, regardless of whether a particular obligation has been expressly so conditioned.

1.8 Permissible Use of Grant Funds

A Grantee may use grant funds only for allowable grant project expenditures. Grant funds related to work performed will be provided on a reimbursement basis, except that an advance of funds may be provided for grant administration expenses in limited circumstances for good cause approved by DHS/FSA at its sole discretion.

The Department will collect and the Grantee shall remit all unexpended and/or unsubstantiated funds within ten (10) business days following conclusion of the Grant Performance Period. Unexpended grant dollars that have not been returned to the Department represent a debt to the District of Columbia.

1.9 Competition for a Grant Award

This RFA is competitive. Each Applicant must demonstrate its team's ability to carry out the activities for each component under this solicitation. A review panel will evaluate the applications according to the list of criteria outlined in Section 5 of this RFA. The proposal with the total highest score will be awarded the grant.

1.10 Grant Monitoring

In its sole discretion, DHS/FSA may use several methods to monitor the grant, including site visits and remote monitoring via review of case notes, performance data, and financial reports. During such visits, the Grantee is required to provide such access to its facilities, staff, clients, and records as may be necessary for monitoring purposes.

Each grant is subject to audit.

1.11 General Terms and Conditions

"Appendix: General Terms and Conditions" is incorporated by reference in this RFA. Applicants and Grantees must comply with any and all applicable terms and conditions outlined in the appendix.

1.12 DHS's Authority to Make Grants

DHS has grant-making authority under:

- Title 1, Chapter 50 of the District of Columbia Municipal Regulations; and any other applicable local and federal laws, regulations, and policies.
- *Section 30 of the Homeless Services Reform Act (HSRA) of 2005*, effective October 22, 2005 (D.C. Law 16-35; D.C. Official Code §§ 4-756.01(a), *et seq.*), as amended, and Mayor's Order 2007-80 dated April 2, 2007.

SECTION 2. PROGRAM SCOPE

2.1 Overview

Through this RFA, DHS seeks to establish a robust suite of services at the new 801 East Men's Shelter, all geared towards engagement, consumer well-being, and ultimately connections to permanent housing. Programming in the facility will be divided into three distinct components, as described in Section 2.3 below: Day Center Programming, Housing-Focused Case Management Services, and Health Clinic and Medical Respite Program Management.

A separate set of functions, collectively referred to as Shelter Operations, will be procured and delivered separately from this grant solicitation. These functions include general building management, building security, janitorial services, facility maintenance, landscaping, and food preparation/handling. Entities bidding on the work outlined in this grant solicitation will be expected to coordinate closely with Shelter Operations staff. This project will serve as an opportunity to test a new approach to providing tailored services to unaccompanied individuals with a goal of making the experience of homelessness as brief as possible.

2.2 DHS Responsibilities

DHS shall be responsible for the following in supporting grantees to fulfill the requirements of this solicitation:

- A) Execute the Grantee selection and award process;
- B) Host kick-off meeting with the Grantee and key Sub-grantees to review requirements, answer questions, and ensure common expectations for moving ahead;
- C) Assign a Grant Administrator and Program Manager, who shall be the financial and programmatic liaisons for Grantees during the term of this grant agreement.
- D) Facilitate collaboration among the Grantee and vendors in the facility, including programmatic Grantees under this solicitation and Shelter Operations staff procured/assigned under different

vehicles. DHS shall host regular interagency check-in meetings and provide problem-solving support as needed.

- E) Provision of an onsite Rapid Exit team (once hired), inclusive of Housing Navigation Support.
- F) Facilitate connection to, coordination with, and problem-solving support with other District agency's providing services in or to the building.
- G) Provide Grantees with written policies, standards, and best practices that shall guide the provision of services and performance expectations.
- H) Provide Grantees with timely feedback on questions, requests, and draft deliverables.
- I) Provide or facilitate access to training on District homeless services system protocol and other relevant District-wide or Department-specific requirements.
- J) Provider oversight of Grantee compliance and performance, meeting regularly with Grantee Program Managers to review performance, discuss opportunities for improvement, and provide technical assistance support as needed.

2.3 Grantee Responsibilities

Applicants shall articulate in their application how they plan to address/fulfill the requirements listed below, including development of separate staffing plans and budgets for each component.

A. Day Center Programming

The first component is Day Center Programming. The 801 East Day Center will provide continuum of services delivered during daytime hours intended to meaningfully engage individuals experiencing homelessness, all with the goal of making homelessness for each individual entering the facility as brief as possible. The Day Center will serve individuals staying in the shelter as well as other individuals in the community (both men and women) experiencing or at risk of homelessness. The Day Center includes staff office/admin space, private consultation rooms, conference rooms, shower facilities for men and women, client laundry room, mailroom, barbershop, clothing shop, and a computer lab. (See Attachment I for facility renderings.) The Grantee shall be responsible for managing and developing programming for all areas in the Day Center facility in accordance with the requirements outlined below.

DHS desires the Day Center to be a place of radical hospitality – one where people feel welcomed, noticed, accepted, and supported on their path towards housing stability. Management of programming for the Day Center will require close coordination with the Shelter Operations team, other providers in the building, as well as other community partners whose expertise will be needed to deliver a robust suite of services in the Day Center.

1. Day Center Grantee Requirements

- a) The Grantee shall be responsible for providing light-touch services, including - but not limited to - concierge/information services, routine troubleshooting, and one-off client supports (e.g., appointment scheduling, transportation tokens) for clients accessing the Day Center minimally during core business hours (Monday through Friday, 9a-5p). The Grantee shall be prepared to maintain a skeleton staff that is able to provide light-touch services seven (7) days per week from 7am to 7pm, the general operating hours of the Day Center, for facilitating self-service activities such as showers and laundry. DHS reserves the right to require reduced or expanded operating hours depending on system needs, weather conditions, funding availability, or other variables.
- b) The Grantee shall be responsible for developing protocol and programming for the Day Center, including the mailroom, barbershop, clothing shop, computer lab, multipurpose room, conference

rooms, private consultation space, and outdoor space. The barbershop shall be used to deliver both job training programming as well as direct client services. The Shelter Operations provider will be responsible for opening and closing the Day Center, coordinating access to laundry and showers in the Day Center, and coordination and troubleshooting on facility issues.

- c) The Grantee shall develop a full programming and staffing schedule for core business hours to be approved by DHS. When developing a programming schedule, the Grantee should consider 1:1 services provided by staff, 1:1 services provided by co-located partners or subgrantees, and group classes/activities. The Grantee should consider the range of activities and services clients may need as they work to pursue housing – including tenant readiness, financial literacy, legal services, life skills, employment and training, mental health supports, substance use/recovery services, and services that support social wellbeing. A draft programming schedule is required in response to this solicitation.
- d) The Grantee shall be responsible for identifying community partners to support programming in the Day Center. This may include a combination of services subcontracted under this grant, services funded through another vehicle but co-located at the Day Center, or volunteer/pro-bono services. The Grantee shall also be responsible for informing DHS when it needs assistance securing the cooperation of District government agency partners (e.g., the Department of Behavioral Health, the Department of Health, the Department of Employment Services). All services provided on site must be offered on a voluntary basis and free of charge for clients.
- e) The Grantee shall be responsible for providing snacks, beverages, hygiene items, and comfort items to guests as needed, and should include resource needs in their programming budget if they are not otherwise able to leverage items through partnerships or donations.
- f) The Grantee shall be responsible for coordinating with the onsite food vendor to ensure access to meals for community-based clients accessing the Day Center. The Grantee shall also be responsible for coordinating with the Shelter Operations staff to ensure access to showers and laundry and any other relevant areas (to be discussed upon facility completion and grant award) in the Day Center.
- g) The Grantee shall be responsible for monitoring service quality and utilization – including protocol for obtaining client feedback on all services provided in the Day Center – and recommending programmatic changes as needed, as well as partner/subgrantee changes in the case of ongoing performance issues.
- h) The Grantee shall be responsible for establishing written protocols for the management of the Day Center. This includes protocols for:
 - i) Coordination with Shelter Operations staff on accessing self-service amenities like showers and laundry;
 - ii) Scheduling staffed services, such as the barbershop and clothing shop;
 - iii) Receiving/distributing mail to clients in the building;
 - iv) Accessing/utilizing client storage;
 - v) Scheduling use of consultation and conference rooms;
 - vi) Tracking programming/service utilization; and
 - vii) Other protocols determined by the Grantee or DHS to be necessary.
- i) The Grantee shall be responsible for establishing a Staffing Plan, Staff Onboarding and Training Plan, and Quality Assurance Plan that is sufficient to fulfill the requirements of this section.

These plans must receive approval from DHS before being implemented. The Grantee shall also be responsible for fulfilling all other general provisions outlined in Section 3.

2. Day Center Performance & Utilization Metrics

On a monthly basis following program launch, the Grantee shall be responsible for submitting to DHS the following information :

- a) The number of unique visitors per day;
- b) The number of unique visitors per month;
- c) Total visitors per month;
- d) Services accessed (by type and number each month);
- e) Number of clients successfully referred to Rapid Exit; and
- f) Number of clients successfully connected to/enrolled in Housing-Focused Case Management.

On a biannual basis, the Grantee shall also be responsible for submitting to DHS the results from its Customer Satisfaction Surveys or other customer feedback processes.

B. Housing-Focused Case Management

The second component is the provision of Housing-Focused Case Management services for the facility. The new 801 E shelter has three separate dorms:

- The Low Barrier Shelter Dorm is situated above the Day Center in Wing A. It contains 192 beds on four floors (twelve beds per room, four rooms per floor). In addition, the shelter has a large multi-purpose room on the first floor adjacent to the Day Center, which will accommodate 40 beds of hypothermia season overflow for men. Individuals will be assigned to Low Barrier Shelter on a first come, first served basis in accordance with the HSRA. Individuals staying in the Low Barrier or Hypothermia Shelter may be allowed to keep the same bed in accordance with DHS protocol and Provider Program Rules, though it is anticipated that individuals will have to exit the dorms during at least some part of the day to facilitate janitorial and maintenance services. In accordance with the HSRA, participation in case management or supportive services shall not be required to receive a bed, though the Grantee is nonetheless expected to continue engaging clients with the goal of making homelessness as brief as possible for every client encountered.

For the remaining funding, DHS will reimburse the Grantee only for expenditures incurred to perform work under the Grant Agreement. DHS may make advance payments to the Grantee to assist the Grantee in meeting its expenditure obligations for the services provided under the grant agreement, the availability, amount, and frequency thereof will be detailed in the grant agreement.

The Grantee shall return to DHS any funds relating to the Grant paid to the Grantee in excess of the Eligible Costs of services and/or Budget provided under this Agreement (including advance payments as described in the Grant Agreement within ten (10) business days of completion of the Grant or upon notification of DHS in writing. DHS also reserves the right to recover such funds by any other legal means necessary.

DHS operates on the District's fiscal year, which starts October 1 of a calendar year and ends September 30 of the next calendar year. The grantee may submit a reimbursement request or an invoice at any time during the fiscal year for work performed within that same fiscal year. Each request/invoice must include all required supporting documentation.

Reimbursements will be mailed to the address on file for the grantee. DHS may make electronic payments in lieu of mailing checks. DHS generally pays grant invoices 30 days after the Grantee submits them through the eInvoicing portal.

Accessibility: The ability of a person (assisted or unassisted) to access products, services, devices, and environments, in order to derive the benefits of those products, services, devices, and environments for themselves, if eligible.

Acuity: The depth of need of the presenting program participant. When utilizing the VI-SPDAT (Vulnerability Index – Service Prioritization Decision Assistance Tool), acuity indicates the presence of a presenting issue based upon evidence of housing instability or vulnerability. In using the VI-SPDAT, acuity is expressed as a number with a higher number representing more complex, co-occurring issues that are likely to impact overall housing stability. For RRH, most single adult households will have an acuity range of 4-7 on the VI-SPDAT (Version 2) or 5-9 (Version 1).

Adequate nighttime residence: A housing accommodation that is not likely to jeopardize the health, safety, or welfare of its occupants.

Administrative Review: A legal process to determine a resolution as a result of a fair hearing request.

Administrative Support: Includes three direct services for participants participating in a program: (1) invoice documentation; (2) invoice tracking; and, (3) data entry into required database system(s). These tasks are intended to directly support the providers' efforts to meet the deliverable requirements of the program. Administrative Support is a direct service and does not include general administrative overhead like rent, insurance, or any other indirect services. In addition, Administrative Support does not include services paid for elsewhere in the human care agreement.

Adult: Any individual who has reached the age of majority under District law as defined in section 46-101 of the D.C. Code; or qualifies as an emancipated minor under District Law.

Affordable Housing: As defined in Homeward DC, affordable housing is housing for which the occupant(s) is/are paying no more than 30 percent of their income for gross housing costs, including utilities. Households that pay more than 30 percent of their income for housing may have difficulty affording necessities such as food, clothing, transportation, and medical care and are considered cost burdened by HUD Households that pay more than 50 percent of their income for housing are considered severely cost burdened.

Appropriate Housing: Housing units that meet the individually stated requests for a participant searching for units in the District of Columbia following clear discussions with the individual of the parameters of their requests. Individual requests may include, but are not limited to, a specific area or quadrant of the city, a specific ward within the District, units with specific amenities, or

units with specific requirements (ADA accessible units). Also, housing should not threaten or compromise the attainment and satisfaction of other basic needs including food, education, and access to health care. In addition, all appropriate units would meet the HUD. Housing Habitability Standards.

Benefit Screening: A process used by a Case Manager or other designated staff member to assist clients in identifying federal and local benefits that they may be eligible for but are currently not receiving, using tools such as the United State Government’s *Benefit Finder Questionnaire* at <https://www.benefits.gov/>.

By-Name List: A real-time, up-to-date list of all people experiencing homelessness that includes categories such as Veteran status, chronic status, active/inactive status, homeless/housed status, etc. By-Name Lists allow communities to know every person experiencing homelessness “by name” and facilitate efficient decisions around how best to refer individuals experiencing homelessness to housing resources.

Caseload: The number of active program participants working on a permanent housing strategy assigned to a Case Manager.

Case Manager: A service professional that engages individuals and provides assistance in developing goals; identifying strengths, opportunities, needs, and barriers; outlining action steps; and connecting individuals with the resources, assistance, and encouragement needed to achieve identified goals.

Coordinated Assessment Housing Placement (CAHP) System (also referred to as Coordinated Entry): Process that streamlines access to homeless assistance services (such as prevention, shelter, and transitional housing), screens applicants for eligibility for these and other programs in a consistent and well-coordinated approach, and assesses needs to determine which interventions are the best fit. In a system that offers coordinated entry, each homeless assistance service location uses the same assessment tool and makes decisions about referrals based on consistent criteria and a comprehensive understanding of each program’s requirements, target populations, and available openings and services.

Culturally Competent: Under the HSRA, refers to the ability of a provider to deliver or ensure access to services in a manner that effectively responds to the languages, values, and practices present in the various cultures of its clients so the provider can respond to the individual needs of each client.

May also be referred to as “Drop-In” Center.

Day Services: Day Services includes a continuum of services delivered during Daytime Hours which are intended to meaningfully engage individuals experiencing homelessness. Such services include, but are not limited to: creating a positive, dignified, safe, and protective environment for each individual and his/her personal belongings; providing a coordinated entry into the homeless services continuum; connecting people to housing, employment, and other supportive services; providing healthy meals and reliable hygiene services; and, ensuring access to peer-led,

professionally-supported, therapeutic programming.

Department: The District of Columbia Department of Human Services or any successor organizational unit (in whole or in part).

Similar to Rapid Exit, though Diversión is delivered at the point people request emergency services, such as entry into emergency shelter.

Homeless: Under HSRA, the definition is limited to individuals that:

- a) An individual or family who lacks a fixed, regular, and adequate nighttime residence, meaning:
 - i) An individual or family with a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings, including a car, park, abandoned building, bus or train station, airport, or camping ground;
 - ii) An individual or family living in a supervised publicly or privately operated shelter designated to provide temporary living arrangements (including congregate shelters, transitional housing, and hotels and motels paid for by charitable organizations or by federal, state, or local government programs for low-income individuals); or
 - iii) An individual who is exiting an institution where he or she resided for 180 days or less and who resided in a shelter or place not meant for human habitation immediately before entering that institution;

Homeless Management Information System (HMIS): The Management Information System designated by a Continuum of Care Governance Board to comply with the U.S. Department of Housing and Urban Development's data collection, management, and reporting standards, and used to collect client-level data and data on the provision of housing and services to homeless individuals and families and people at risk of homelessness.

Homeless Services Reform Act (HSRA): A District of Columbia statute that governs the provision of services and assistance to people experiencing or at risk of homelessness in the District. See: <https://ich.dc.gov/page/homeless-services-reform-act-2005>

Household Budget: A financial plan that identifies all sources of client household income (earned and unearned) the client's income towards expenses (rent, food, and other costs of living), savings, and debt repayment, as applicable). Households budgets should be considered based on how a participant will manage expenses like rent, food, and other living costs following the end of their subsidy in the RRH-I program.

Housing First: Under the HSRA, Housing First means a program that provides participants with

immediate access to independent permanent housing and supportive services without prerequisites for sobriety or participation in psychiatric treatment. Participants in Housing First programs may choose the frequency and type of supportive services they receive, and refusal of services will have no consequence for their access to housing or on continuation of their housing and supportive services. HUD encourages all recipients of CoC Program-funded P.S.H. to follow a Housing First approach to the maximum extent practicable. To that end, a Housing First orientation is specified as one of the universal qualities that a coordinated assessment process should include. Coordinated assessment tools should not be used to determine “housing readiness” (i.e. that an individual must address other issues that may have led to the episode of homelessness prior to entering housing), or screen people out for housing assistance, and therefore should not encompass an in-depth clinical assessment. A more in- depth clinical assessment can be administered once the individual or family has obtained housing to determine and offer an appropriate service package.

Housing-Focused Case Management: A service designed to 1) engage individuals; 2) provide assistance in identifying needs, desires, strengths, opportunities, and barriers with regard to housing attainment and housing stability; and 3) provide tailored support that empowers clients to achieve their goals, including (but not limited to) navigating systems, identifying available resources, assessing options, identifying points of contacts, completing applications, and pursuing new knowledge and skills. In the shelter context, Case Management centers primarily on the pursuit of permanent housing, though clients are empowered to consider the issues and needs that they consider critical to their pursuit of housing (e.g., employment, reconnection with family or others in their support network, healthcare supports).

Housing the Homeless Database (HTH): The current software application in QuickBase used by the Department of Human Services for homeless participants referred to the District’s homeless services programs.

Housing Navigation: A service designed to help clients navigate the rental market and identify appropriate housing options. Housing Navigators are responsible for building relationships with landlords, working with landlords to secure units for individuals exiting homelessness, helping landlords navigate the requirements of different housing subsidy programs, providing problem-solving support for landlords during and after the lease-up process, and coordinating with Case Managers to ensure clients find a unit that will work for them.

Housing Plan: means a written plan collaboratively developed and agreed upon by the provider and the client, consisting of time-specific goals and objectives designed to promote attainment of permanent housing based on the client’s unique needs, desires, strengths, resources, and limitations.

Hyperthermia Shelter/Beds: A public or private building that the District shall make available, for the purpose of providing shelter to individuals or families who are homeless and cannot access other shelter, whenever the actual or forecasted temperature or heat index rises above 95 degrees Fahrenheit. The term “hyperthermia shelter” does not include overnight shelter. (21)
“Hypothermia shelter” means a public or private building that the District shall make available, for the purpose of providing shelter to individuals or families who are homeless and cannot access other shelter, whenever the actual or forecasted temperature, including the wind chill factor, falls below 32 degrees Fahrenheit.

Hypothermia Shelter/Beds: A public or private building that the District shall make available

whenever the actual or forecasted temperature, including the wind chill factor, falls below 32 degrees Fahrenheit, in order to provide 24-hour shelter to families and 24 hour shelter to individuals (during aforementioned weather conditions only) who are homeless and cannot access other shelter. Specific beds may be designated as hypothermia beds at shelters, facilities and programs that are not categorized as hypothermia shelters. Hypothermia shelters/beds may be designated as seasonal (once opened initially they shall stay open every night for the season) or alert only (only open when hypothermia alerts are called). Hypothermia shelters/beds may be used (at the discretion of the District) outside of the season based on need. Also referred to as “severe weather” shelter.

Medically Frail: An individual who has a serious ongoing illness or a chronic physical condition that has lasted or is anticipated to last for more than 12 months or has required more than one month’s hospitalization.

Medical Respite Services: According to the HSRA, medical respite services are time-limited acute and post-acute medical care that is provided in a residential medical facility or shelter to individuals who are: a) Homeless; and b) Determined by a qualified medical professional licensed in the District to require medical assistance.

Motivational Interviewing: a client-centered yet directive approach for facilitating change by helping people to resolve ambivalence and find intrinsic reasons for making needed behavior change. Originally designed for people with substance use disorders, motivational interviewing is now broadly applied in health care, psychotherapy, correctional, and counseling settings. It is particularly applicable when low intrinsic motivation for change is an obstacle. Rather than advocating for and suggesting methods for change, this approach seeks to elicit the participant’s own goals, values, and motivation for change and to negotiate appropriate methods for achieving it.

Naloxone (also known as Narcan): This is a medication approved by the Food and Drug Administration (FDA) to prevent overdose by opioids such as heroin, morphine, and oxycodone. It blocks opioid receptor sites, reversing the toxic effects of the overdose. Naloxone is administered when a patient is showing signs of opioid overdose. The medication can be given by intranasal spray, intramuscular (into the muscle), subcutaneous (under the skin), or intravenous injection.

Performance Measures: A process that systematically evaluates whether your program’s efforts are making an impact on the clients you are serving.

Progressive Engagement: An approach to service delivery that starts with an understanding of the strengths and resiliencies that each person has and works to leverage those in promoting housing and life stability. Case management, therefore, starts with a “light touch” and becomes more involved, intensive, and frequent when a program participant demonstrates that without more assistance their tenancy would be in peril. Once the situation has been resolved or new skills have been learned, the intensity and frequency of case management services regresses back to a “light touch.”

Provider: As defined by the HSRA, an individual or entity within the Continuum of Care that operates a program covered by § 4-754.01.

Rapid Re-Housing (RRH): As defined by the HSRA, a program that provides housing relocation and stabilization services and time-limited rental assistance, as necessary, to help a homeless individual or family move as quickly as possible into permanent housing and achieve stability in permanent housing such that recipients may remain in the housing when assistance ends.

Rental Assistance: Financial and programmatic supports that enable individuals to obtain and maintain affordable housing. Such assistance can include, but is not necessarily limited to, time-limited assistance with security deposits and/or a subsidized portion of monthly rental costs, in accordance with the District's Rent Reasonableness standards.

Senior: An individual that is 65 years of age or older.

Severe Weather Shelter: As defined by the HSRA, means hyperthermia shelter or hypothermia shelter.

of providing shelter and supportive services with a specific focus on a target population or service, a specific focus on issue/barrier for the homeless (e.g., mental health, disabilities, etc.), or both. These facilities programs are considered “specialty programs/shelters.” DHS, the Contractor, and subcontractors shall partner with Federal and other District agencies (e.g., U.S. Department of Veterans Affairs, DC Department of Health, DC Department of Mental Health, DC Office on Aging, etc.) to connect clients in specialty shelters to mainstream services provided by these agencies. Additionally, as designated by DHS, the Contractor shall ensure that subcontractors at specialty shelters are certified to receive reimbursements for direct services provided to clients as applicable.

Termination: Defined by the HSRA § 4-754.36, a provider may terminate its delivery of services to a client when the provider documents that it has considered suspending the client in accordance with § 4-754.35 or has made a reasonable effort, in light of the severity of the act or acts leading to the termination, to transfer the client.

Transportation: Defined as any mode of transportation used to assist the individual with housing and employment related services, such as Metro Smart Trip fare cards, mileage and/or rideshare.

Trauma Informed Care: Most individuals seeking public behavioral health services and many other public services, such as homeless and domestic violence services, have histories of physical and sexual abuse and other types of trauma-inducing experiences. Trauma-informed organizations, programs, and services are based on an understanding of the vulnerabilities or triggers of trauma survivors that traditional service delivery approaches may exacerbate, so that these services and programs can be more supportive and re-traumatization can be avoided.

Vulnerability Index-Service Prioritization Decision Assistance Tool known as (VI-SPDAT) or (SPDAT): The Vulnerability Index is a tool for identifying and prioritizing the homeless population for housing according to the fragility of their health. The SPDAT is an evidence-informed approach to assessing an individual’s or family’s acuity. The VI-SPDAT tool, across multiple components, prioritizes who to serve next and why, while concurrently identifying the areas in the person or family’s life where support is most likely necessary in order to avoid housing instability. Co-occurring social and medical factors are the primary factors that contribute to homelessness. The VI-SPDAT was created through the merger of the Vulnerability Index, as owned and made popular by Community Solutions, and the SPDAT Pre-screen Tool, which is part of the SPDAT tool suite owned and created by OrgCode Consulting, Inc.

Warm Handoff: A real-time and in-person referral meeting where an initial provider introduces their client to a new provider to facilitate the transition of primary case management. This method provides clients with the assurance that they, the initial provider, and new provider are all part of a team and that their wellbeing is the central focus of the team’s efforts. This reinforces positive expectations, good communication, and continuous care.

Welcoming Environment: A bright, positive, and person-centered atmosphere created by the staff through personalized greetings, respectful processes/procedures, furniture arrangements, room configurations, and decorations. All of these things add up to create a welcoming

environment for clients.

Youth: A person who is aged 24 years or younger.
