

**DEPARTMENT OF ENERGY AND ENVIRONMENT  
NOTICE OF FUNDING AVAILABILITY**

**RiverSmart Rooftops Rebate Program**

The Department of Energy and Environment (DOEE) seeks eligible entities to submit an application that will identify private property owners in the Districts MS4 area (municipal separate storm sewer system) willing to install green roofing, provide rebates to the owners for that purpose, and educate the public through a voluntary incentive program.

DOEE's Watershed Protection Division implements projects that control, prevent, and provide remediation for nonpoint sources of pollution to District of Columbia (District) waters and the Chesapeake Bay. A major contributor of pollution to the District's waterways is stormwater runoff. An innovative approach to managing stormwater runoff from rooftops is the low impact development technology called green roofs. (Visit [doee.dc.gov/greenroofs](http://doee.dc.gov/greenroofs) to learn more about this type of stormwater management practice.). The amount available for the project is at least \$400,000, and with a discretionary extension in duration, could total at least \$800,000.
